We Make Change Kristin Layng Szakos, Joe Szakos, 2007 Community organizers work at their jobs because they are passionate, because they believe that change is possible, and because they enjoy working with people. Although it's not an occupation that leads to great wealth, community organizers can make a living at it. They get salaries, pensions and health insurance. They raise families. They do well by doing good. This book explores the world of community organizing through the voices of real people working in the field, in small towns and city neighborhoods--women and men of different races and economic backgrounds, ranging in age from those in their twenties to those in their sixties. Fourteen in-depth profiles tell the life stories of a cross-section of the diverse people who choose the life of an organizer. Other chapters, focused on issues of organizing, are tapestries of experience woven from the 81 interviews the authors conducted.

Collective Action for Social Change A. Schutz, M. Sandy, 2011-04-11 Community organizers build solidarity and collective power in fractured communities. They help ordinary people turn their private pain into public action, releasing hidden

Undoing the Silence Louise Dunlap, 2007-11 *Undoing the Silence* offers guidance to help both citizens and professionals influence democratic process through letters, articles, reports and public testimony. Louise Dunlap, PhD, began her career as an activist writing instructor during the Free Speech Movement of the 1960s. She learned that listening and gaining a feel for audience are just as important to social transformation as the outspoken words of student leaders atop police cars. Free speech is a first step, but real communication matches speech with listening and understanding. That is when thinking shifts and change happens. Dunlap felt compelled to go where the silences were deepest because her work aimed not just at teaching but also at healing both individual voices and an ailing collective voice. Her tales of those adventures and what she knows about the culture of silence -- how gender, race, education, class, and family work to quiet dissent -- are interwoven with practical methods for people to put their most challenging ideas into words. Louise Dunlap gives writing workshops around the country for universities and social justice, environmental, and peace organizations that help reluctant writers get past their internal censors to find their powerful voice. Her insight strengthens strategic thinking and her You can do it! approach makes social-action writing achievable for everyone.

Patagonia Tools for Grassroots Activists Nora Gallagher, Lisa Myers, 2016-02-09 For over twenty years, Patagonia has organized a Tools Conference, where experts provide practical training to help make activists more effective. Now Patagonia has captured Tools' best wisdom and advice into a book, creating a resource for any organization hoping to hone core skills like campaign and communication strategy, grassroots organizing, and lobbying as well as working with business, fundraising in uncertain times and using new technologies. Patagonia hopes the book will be dog-eared and scribbled in; a solid, inspiring guide and reliable companion. The book is organized in two sections: Strategies, and Tools. Each chapter, written by a respected expert in the field, covers essential principals as well as best practices. A hands-on case study accompanies each chapter and demonstrates the principles in action. Sprinkled throughout are inspirational thoughts from acclaimed activists, such as Jane Goodall, Bill McKibben, Wade Davis, Annie Leonard, and Terry Tempest Williams. An activist's companion in the environmental movement.

Community Practice Skills Dorothy N Gamble, Marie Weil, 2009-11-22 Dorothy N. Gamble and Marie Weil differentiate among a range of intervention methods to provide a comprehensive and effective guide to working with communities. Presenting eight distinct models grounded in current practice and targeted toward specific goals, Gamble and Weil take an unusually inclusive step, combining their own extensive experience with numerous case and practice examples from talented practitioners in international and domestic settings. The authors open with a discussion of the theories for community work and the values of social justice and human rights, concerns that have guided the work of activists from Jane Addams and Martin Luther King Jr. to Cesar Chavez, Wangari Maathai, and Vandana Shiva. They survey the concepts, knowledge, and

perspectives influencing community practice and evaluation strategies. Descriptions of eight practice models follow, incorporating real-life case examples from many parts of the world and demonstrating multiple applications for each model as well as the primary roles, competencies, and skills used by the practitioner. Complexities and variations encourage readers to determine, through comparative analysis, which model at which time best fits the goals of a community group or organization, given the context, culture, social, economic, and environmental issues and opportunities for change. An accompanying workbook stressing empowerment strategies and skills development is also available from Columbia University Press.

Community Organizing David S. Walls, 2015-02-03 This incisive book provides a critical history and analysis of community organizing, the tradition of bringing groups together to build power and forge grassroots leadership for social, economic, racial, and environmental justice. Begun by Saul Alinsky in the 1930s, there are today nearly 200 institution-based groups active in 40 U.S. states, and the movement is spreading internationally. David Walls charts how community organizing has transcended the neighborhood to seek power and influence at the metropolitan, state, and national levels, together with such allies as unions and human rights advocates. Some organizing networks have embraced these goals while others have been more cautious, and the growing profile of community organizing has even charged political debate. Importantly, Walls engages social movements literature to bring insights to our understanding of community organizing networks, their methods, allies and opponents, and to show how community organizing offers concepts and tools that are indispensable to a democratic strategy of social change. Community Organizing will be essential reading for advanced undergraduates and graduate students of sociology, social movements and social work. It will also inform organizers and grassroots leaders, as well as the elected officials and others who contend with them.

Teaching Tech Together Greg Wilson, 2019-10-08 Hundreds of grassroots groups have sprung up around the world to teach programming, web design, robotics, and other skills outside traditional classrooms. These groups exist so that people don't have to learn these things on their own, but ironically, their founders and instructors are often teaching themselves how to teach. There's a better way. This book presents evidence-based practices that will help you create and deliver lessons that work and build a teaching community around them. Topics include the differences between different kinds of learners, diagnosing and correcting misunderstandings, teaching as a performance art, what motivates and demotivates adult learners, how to be a good ally, fostering a healthy community, getting the word out, and building alliances with like-minded groups. The book includes over a hundred exercises that can be done individually or in groups, over 350 references, and a glossary to help you navigate educational jargon.

Library Journal, 2006 Includes, beginning Sept. 15, 1954 (and on the 15th of each month, Sept.-May) a special section: School library journal, ISSN 0000-0035, (called Junior libraries, 1954-May 1961). Also issued separately.

Transformational Leadership for the Helping Professions Jean F. East,2018-09-03 Twenty-first-century challenges abound for people in leadership roles in the helping professions (i.e., social work, nursing, teaching, public health, and social services). It is the mission of these professionals to facilitate change not only for consumers of their work, but also for organizations and communities. While many books written for human services leaders focus on leadership roles and tasks, *Transformational Leadership for the Helping Professions* explores growth in leadership, coupled with key competencies. The text also combines both classic and current theories on leadership, with a philosophical lens on its meaning and practice in human services settings. Social workers, nurses, teachers, public health workers, and community leaders will find the text to be a useful guide in strengthening their consideration of leadership theory while they practice in day-to-day work. Additionally, educators and students of leadership in the helping professions will gain a solid understanding of key facets of leadership practice within a framework that inspires a social justice, empowerment, and cultural humility perspective.
