**CAPE Accounting 2** Sylvan James,2020-03-28 This textbook is to help students taking the Caribbean Advance Proficiency Examination (CAPE) in Accounting Unit 2 Cost and Management Accounting. Students can enhance their problem solving, computational and accounting skill by using the model answers to past examination questions. The book presents a preview of the type of response you will have to give to the questions in the actual examinations. The book provides suggested solutions to students for past examination papers. The author has served as a CAPE Examining Assistant for the past 15 years and is very acquainted with the style of questions and the solutions required. My approach to preparing the answers has been both of an examiner and teacher. I am fully aware of the frustrations many candidates face in formatting and presenting their responses of this particular unit and have sought to address this problem. You can use the layouts suggested. The book provides suggested responses to question papers for the years 2012 - 2019. These are the years covered by the present syllabus. The solutions are clearly laid out according to each year and each module. Students can obtain the relevant examination papers from the Caribbean Examinations Council and work them through by modules and compare their response with the one given here. The book will also be useful to teachers in preparing their students for taking this exam.

**CAPE Accounting Unit 2** Sylvan James,2019-10-05 This book is primarily intended for anyone taking the Caribbean Advance Proficiency Examinations in Accounting Unit 2, Paper 1. It will also be useful for those who are studying for other Multiple Choice Examinations in Cost and Management Accounting at an Intermediate Level. The book contains over 450 questions arranged into eleven chapters, each covering a different section and topic of the Syllabus. The questions are structured to increase your understanding and give you an opportunity to apply the accounting concepts you have learnt. It will also provide valuable familiarity with the type of questions you are likely to encounter in the examination. The book is meant to be used along with a textbook. I recommend the use of the CAPE Accounting Unit Two, Study Guide, since the chapter headings are similar to the topical headings in this book. The book will also be useful for revision.

**Collaborative capacity development to complement stroke rehabilitation in Africa** Quinette Louw, 2020-12-31 This scholarly book focuses on stroke in Africa. Stroke is a leading cause of disability among adults of all ages, contributing significantly to health care costs related to long term implications, particularly if rehabilitation is sub-optimal. Given the burden of stroke in Africa, there is a need for a book that focuses on functioning African stroke survivors and the implications for rehabilitation within the African context. In addition, there is a need to progress with contextualised, person-centred, evidence-based guidance for the rehabilitation of people with stroke in Africa, thereby enabling them to lead socially and economically meaningful lives. The research incorporated in the book used a range of primary and secondary methodological approaches (scoping reviews, systematic reviews, meta-analyses, descriptive studies, surveys, health economics, and clinical practice guideline methodology) to shed new insights into African-centred issues and strategies to optimise function post-stroke.
